Subject: [External] Docket No. 2023-9-E
Date: Friday, August 4, 2023 2:18:14 PM

I am a Dominion customer and I want a public hearing on Dominion's long-term resource plan.

South Carolina is on the front lines of the climate crisis: flooding, extreme heat and extreme weather are all things already impacting our daily lives. The burning of fossil fuels is driving this disaster, and South Carolinians deserve to have a say in what fossil fuels we use in our state. These decisions will impact our future!

Thank you,
Emma Abrams
